Supply Chain

## About Us:

OWM Logistics, India & UAE leading and fastest growing complete supply chain solutions and services provider. We provide wall-to-wall global SCM solutions and services.

### OUR MISSION:

Our mission is to uplift our domestic & international customer's growth by providing world-class facilities, infrastructure, equipment, technology and services.

### OUR VALUES:

OWM has state-of-the-art warehousing facilities and highly skilled and trained industry professionals continuously engage in providing consistent operation & end-to-end supply chain services.

### Warehouse Consultancy:

OWM solutions offer warehouse consultancy services that can help improve your business's bottom line through more efficient warehouse operations, process and performance.

### 3rd Party Logistics (3PL):

State-of-the-art fulfillment centers giving flexibility to cater the different needs of customers irrespective of the industries they belong.

### Warehouse Operation:

OWM provides end to end warehouse operation services that have 25% min. cost efficiency, excellent operational efficiency, and impressive inventory accuracy.

### Craftsman Automation:

We provide customized storage solutions and warehouse automations such as ASRS and shuttle carriers as a part of our automated solutions.

## Technology & Automation:

We always believe in implementing right technology & automation across supply chain, this help us enhance accuracy, efficiency and visibility, few of our offered technologies are Barcode, RFID, Mobility, ASRS, VStore, Voice Picking etc.

### ASRS

ASRS typically replace large areas of shelving to save floor space, improve safety and increase productivity, allows proper utilization of space by saving it

### VOICE DIRECTED PICKING

Voice picking solution dramatically improves safety by allowing workers to work in a hands and eyes-free environment and also deliver 99% accuracy.

### VSTORE

VStore is an integrated storage and retrieval system designed to make maximum use of vertical space. VStore vertical storage systems can be deployed in various industries.

### RFID

Supply Chain industry, warehouse and distribution centers gain operational efficiency and enhance productivity using RFID.

## Why Choose us?

We strongly believe in our core values: integrity, value addition, respect and commitment that enable us to differentiate from our competitors. The foundation of our success is built upon the long-standing partnerships we have created with our customers through our commitment, consistent service delivery and ROI-driven innovative supply chain solutions.

We serve our customers through an on-site model and have helped in bringing best value proposition by eliminating operation and process bottlenecks for sustained growth. We thrive to build long term relationships with our customers and partners by aligning to their business models and road map.
